

Adirondack Division, New York Central System

Operating Session Jobs

Dispatcher

Dispatch the railroad, using radio communications and track trains using the dispatcher's panel (magnet board)

Rensselaer Yard Master (staging/fiddle yards)

Oversee traffic into and out of staging yard (tracks 1-4); Assemble and disassemble trains that are not using staging tracks from the storage bin "tracks"

North Country Yard Master

Disassemble arriving trains and assemble trains for departure using the 8-track yard;
Manage traffic within yard limits

Albany Union Station - Tower B Operator

Manage all traffic and routes through Union Station complex; Operate switches

Train Crews - 3 to 4

Operate trains along the railroad, dropping and picking up cars as indicated by a manifest. Dispatcher will authorize movement using radio communications. Trains originate and terminate at Rensselaer Yard, Rensselaer Yard staging, Albany Union Station staging, North Country Yard and Buffalo staging.
